WHO ARE WE?

FaithActs is a non-profit community care service serving the needs of children, youth, families and seniors in Singapore since 2004. Our aim is to impact lives through the provision of a wide range of quality programmes and services to meet needs and address social issues, regardless of their ethnic, socio-economic and religious backgrounds.

FaithActs is registered with the Registrar of Societies and Commissioner of Charities. We are also a member of National Council of Social Service and is approved as an Institution of a Public Character (IPC) since 2008.

PATRON'S MESSAGE

FaithActs started in 2004 with a vision of impacting, changing and transforming the lives of youths-at-risk in particular. Since then, FaithActs has evolved to embrace a much broader role to bring relief and happiness to the wider community, including children with learning difficulties, families with challenging needs and seniors who are lonely.

I am also delighted to learn that FaithActs is keeping pace with the changing needs of seniors by introducing a smartphone literacy programme early this year. Specifically, seniors learn, at their own pace, to surf the internet and use lifestyle mobile applications such as bus app, chat group, music and video, photo taking cum editing, Facebook, Instagram, etc. These have indeed enhanced their IT knowledge and enabled them to keep up with the digital age.

The outreach to the community involves every individual. I would like to express my appreciation to the dedicated supporters and staff of FaithActs who have consistently delivered critical social services to the disadvantaged in our community. I hope the journey has been as enriching and fulfilling as it has been for the beneficiaries.

PASTOR AND CHAPLAIN'S MESSAGE

We praise God that over the past 14 years, FaithActs has focused primarily and steadfastly on loving our neighbours. Today, FaithActs continues to express the love of God by reaching out to the community including children with learning needs, youths-at-risk, disadvantaged families and the frail seniors.

We thank the Lord for the collaborative efforts between Faith Methodist Church and FaithActs to create a community of love and care. Our Church's members and a great number of volunteers have jointly tidied the homes of our frail seniors, befriended the distressed, assisted the seniors in their personal grooming (e.g. haircut), escorted the sick for their medical appointments and provided meals for the needy residents.

We express our grateful thanks and appreciation to all our supporters for their selfless work in reaching out, engaging and helping the least, the last and the lost in our community. In order to build an inclusive and loving community, we need every pair of hand to participate in the ministry of FaithActs. The Bible states, "two are better than one, because they have a good return for their labour." Ecclesiastes 4:9 (NIV).

Let's join our hearts and hands in blessing the community with God's love.

CHAIRMAN'S MESSAGE

FaithActs celebrates her 14 years of social services to the community in the Tanglin Halt, Commonwealth, Dover and Queenstown area. We attribute our success to the enthusiastic all-round support and collaboration with various agencies and corporations. These partnerships have helped to build the network of bridges for our beneficiaries.

This year, we are pleased to collaborate with the Corporate Social Responsibility arm of Economic Development Innovations Singapore, EDIS Cares, to start the Early Learning Programme (ELP) to benefit the 6 to 7 year-olds who have yet to attain the literacy and numeracy levels for their age group. The Programme creates opportunities for children to reach their full potential through a special curriculum designed to help even those with learning difficulties.

In another partnership with The Arts Fission Company Ltd and The Philharmonic Orchestra, FaithActs is proud of our seniors who performed for the very first time at the Esplanade – Theatres on the Bay in a music and dance-theatre production, Garden Uprooted on 19 May 2018. It was a joy to watch this inter-generational presentation where our seniors performed alongside the students from LASALLE College of Arts.

We are encouraged to see our beneficiaries, regardless of their age, desiring to learn and improve themselves through our services.

Lastly, I would like to express my appreciation to all donors, volunteers, partners, supporters, Management Committee members and staff for your invaluable contribution as bridge-builders for the community.

PERSONALISED LEARNING

On 7 April 2018, FaithActs and EDIS-Cares kicked off the first Early Learning Programme (ELP) lesson at Block 118 Commonwealth Crescent with 17 children.

ELP is a literacy and numeracy intervention programme for children who have not yet achieved the ability levels for their age group. Chartered buses ferry the children to and fro the Saturday lessons. Volunteers are trained to teach the children on a maximum 1 : 2 basis using in-house curriculum. The children's progress is monitored through baseline, mid-term and year-end tests, and specialist evaluations are arranged for children who show signs of learning difficulties. We hope that through the ELP, we can address a key need for children transitioning to, or just starting, Primary School.

CHILDREN'S PROGRAMME – *The Learning Hub*

This new initiative started on 1 February 2017 at Block 50 Commonwealth Drive with 6 children. To date we have 32 children.

We started this programme at our other centre at Block 118 Commonwealth Crescent on 18 April 2017 with 11 children. This number rose quickly and to date we have 36 children.

The after-school programme provides children with a non-academic based learning environment. The after-school programme provides children with a safe and supervised environment for learning. It focuses primarily on the children's schoolwork and includes enrichment activities aimed at developing the child's character and potential.

KidsLEAP

Starting out as a pilot project in August 2014, the programme seeks to help primary school children, especially those from less well off families, to improve their proficiency in the English language through a variety of activities.

Our social workers together with the help from dedicated and experienced volunteers worked together with the parents and teachers to support the children in their learning of the language, be it from home or in school. The curriculum is reviewed regularly to remain relevant in meeting the needs of children who are weak learners in the subject.

KidsLEAP is conducted on Thursdays, 3-4.30pm, 1st run in February - May and a 2nd run in July - October.

The programme teaches children ways to prepare simple meals. It educates our children lessons in self-living, patience and the importance of family and community bonding. The children are taught various methods of preparing the different types of culinary cuisine based on the theme selected for each month.

Our children had the opportunity to help prepare a meal for the seniors at Redhill Senior Activity Centre on 24 October 2017. They also experienced how commercial kitchens operate through the kitchen tours to places like One degree 15 Marina@ Sentosa, Circle of Friends-Serve with Love, Furama Hotel and others.

Our group of dedicated and committed volunteers also tutors and mentors the students by motivating and instilling confidence in them to better cope with their studies.

Each tutor will only take up to 2 students at a time in order to be able to provide the personal attention to their academic, social and emotional needs. With a better understanding of the student's learning and coping abilities, they would be better equipped, together with the staff and parents, to help the student in their areas of need. Students needing more help can be identified for other intervention measures if needed.

Our aim is to see every child or youth's life transformed by having a positive mindset and taking ownership of their studies.

CULINARY APPRECIATION WORKSHOP

The Workshop aims to impart life skills and values at a tender age. The culinary appreciation workshop is entering into its 2nd year with Fairfield Methodist School (Primary).

The students are taught how to prepare simple meals from recipes appropriate to their age. During the course of the workshop the students learn patience, team building as they engage in different roles, creativity with the food preparation and confidence when they succeed in preparing the dishes.

COMMUNITY SERVICE LEARNING

This programme provides the platform for the students to interact with the seniors in the community. The students have assisted in household chores, carried out health screen tests and craftwork sessions for the seniors. All these activities have given the students a keener appreciation for the often overlooked members of the community.

This year we had The Learning Journey (6-9 March 2018) which saw 133 students involved in cleaning 18 seniors' homes, 34 students conducting a handicraft workshop for 36 seniors and 66 students performing health screen tests for 94 seniors.

SENIORS' PROGRAMME – *Mobile App & Hanyu Pinyin* NEW

A GREAT WAY FOR SENIORS TO KEEP THEIR MINDS SHARP.

The mobile application class for seniors was started on 6 December 2017 held on every Wednesday, 9-10.30am. This programme is conducted in Mandarin and is targeted at those aged 50 years and above.

The seniors display a keen eagerness to learn and communicate through digital technology. Beginners learn the basics of using a smartphone, from swiping to unlocking and tapping to answer calls. They learn how to use various applications for their personal entertainment and engagements. They surf the internet and enjoy listening to old songs. As they learn more about social media, they are not only actively engaged but find joy in sharing their technological achievements with their family and friends.

As they learn more about social media, they are not only actively engaged but find joy in sharing their technological achievements with their family and friends.

The Hanyu Pinyin class is enriching for seniors wishing to perfect their pronunciation of Chinese characters with the use of vowels, consonant sounds and the 4 tones in the language.

SENIORS' PROGRAMME – *WOW Workout*

The workouts are customised for both the high and low mobility participants, and are conducted at Block 50 Commonwealth Drive, Block 1 Dover Road, and Block 118 Commonwealth Crescent.

The WOW Workout is a holistic programme that allows the seniors to remain physically, emotionally and socially active.

This programme benefits the seniors by improving their balance, endurance, flexibility and strength over time. We have since seen an increase in the number of participants over the past year.

Circuit Low Mobility Workout For The Frail

This is a supervised and customized programme created with the aim of improving and strengthening the seniors' limbs with the use of different equipment.

The programme is currently conducted by physiotherapists from National University Health System (NUHS), with the help of our volunteers. The seniors are closely monitored for their progress.

SENIORS' PROGRAMME – *Social Recreation & Outing*

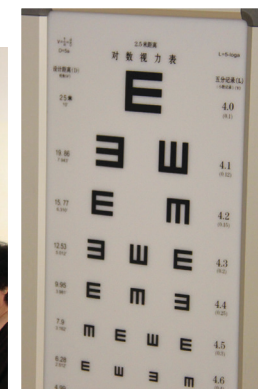

Our Social Recreational Programme (SRP) aims to improve the quality of life of seniors by keeping them socially active through activities such as craftwork, mentally stimulating games, therapeutic dance and fun outings.

This year, we kick started our highly anticipated Angklung (a traditional Indonesian bamboo musical instrument) workshop. This workshop is conducted once a month and aims to engage our seniors meaningfully through music. Our seniors get to exercise their cognitive abilities and motor skill and enjoy a relaxing time whilst playing the instrument.

We have also had many exciting collaborations with organisations such as Sparkletots and Arts Fission to promote intergenerational bonding between the old and the young.

Our seniors get to exercise their cognitive abilities and motor skill and also enjoy a relaxing time whilst playing the instrument.

The 'Doctor Is In' started in March 2017 with our volunteer doctor who sought to render our seniors the necessary medical advice needed.

To allow for a more in-depth session, a 30 minute slot is allocated to each senior who signs up. This allows the doctor to better engage the seniors in sharing their health issues in a comfortable safe space.

The 'Doctor Is In' started in March 2017 with our volunteer doctor who sought to render our seniors the necessary medical advice needed.

This programme provides seniors a myriad of opportunities to attend talks and trainings conducted by external partners such as Tan Tock Seng Hospital, Feiyue CREST, and NTUC Health etc.

The aim is to help the seniors through these talks and workshops with the knowledge to make their lives more meaningful and purposeful.

Residents of Blocks 103,104 and 106 Commonwealth Crescent were invited to our community breakfast *Makan Together!* at Block 118 FaithActs centre on 9 September and 9 December respectively. A total of 90 residents turned up on both days from 8am till 10am. They mingled with volunteer befrienders and fellow block residents over a sumptuous spread of all-time breakfast favourites such as curry puffs, croissants, mee goreng and hot beverages. With *Makan Together!*, we aim to bridge residents within their block and the neighbourhood at large to build a more closely knitted community. The interactions also enable FaithActs to understand their needs better to customise activities and programmes that are more targeted and suitable for them.

FaithActs, in partnership with West Legal Clinic, seeks to provide free basic legal advice to individuals on personal matters (except for Shari'a law).

The 20-minute meeting with a qualified lawyer will cover areas where the individual is not legally represented. This session is open only to Singaporeans and Permanent Residents.

Our legal clinic is held once every 2 months on a Saturday morning from 10 am to 12 pm. Pre-registration is required as sessions with the lawyers are strictly by appointments only.

FaithActs, in partnership with West Legal Clinic, seeks to provide free basic legal advice to individuals on personal matters (except for Shari'a law).

We aim to provide a helping hand and come alongside those who are facing emotional, psychological, relational and marital problems. The goal is for each person to come to a better understanding of who they are, and be able to manage difficulties with guidance from our case workers. Other than applying financial assistance for the needy families, our work includes encouraging them to participate in social activities, and developing a more positive outlook of life. Based on their needs, we also work closely with other community agencies to support them in a more holistic approach. Such collaborative efforts enable us to operate as bridges within the bigger community and respond to the call of a caring nation.

DECLUTTERING

HOME CLEANING

There has been an increasing number of seniors needing their home to be decluttered or cleaned. This could be due to their frailty, inability to do household chores or for some, because of habitual cluttering.

This year, we have helped improve 27 homes. Together with our volunteers, we have decluttered, fumigated, cleaned and painted our clients' home in Tanglin Halt, Commonwealth Drive/Crescent, Holland Road, Ghim Moh and Mei Ling Street.

We aim to see families strengthened by organising interactive activities that promote communication and interpersonal relationships. The discovery of family members' strengths and weaknesses will develop the values of understanding, patience and tolerance. We hope to build stronger families for the well-being of the community.

Marriage Preparation Programme aims to equip couples for a fulfilling and blissful marriage, one that is beyond the wedding ceremony by preparing them with the skills and knowledge to deal with challenges in their marriage journey.

Marriage enrichment programme aims to enhance the marriage relationship by focusing on the positive aspects of marriage in communicating positively and successfully resolving differences to nurture and strengthen the marriage commitment.
